

Iridium 9555 Quick Guide

Making a Test Call

1. Make sure you are **outside with an open view of the sky**, away from any obstructions.
2. Once **outside**, fully extend the antenna. Hold the on/off button for **5sec**. Make sure the antenna is straight at all times.
3. Once the phone says **registered**, hold the "0" key until the "+" symbol appears, then dial country code (*Canada/US are "1"*) & number.
4. Press the green button to place the call, and the red button to end the call.

Your Iridium Phone Number

Calling to a Landline or Cellphone

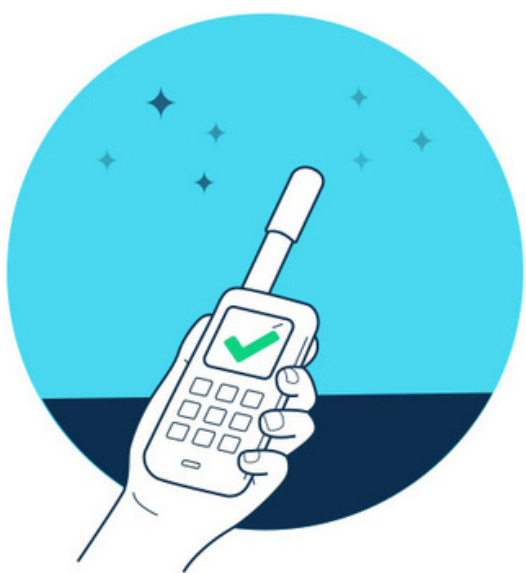

1. Hold the "0" key until the "+" symbol appears, then dial **Country Code**, and rest of phone number.
2. Press **green button**. (talk)
3. Press **red button** to end.

Calling another Iridium phone

1. Dial 8816 - XXXX - XXXX

Receiving calls on your phone

1. **Caller** first dials: 1-480-768-2500
2. When prompted enter the **Iridium phone number**. (below)
3. **Wait** to be connected.

Use your Iridium phone with the **antenna extended** in an open area where the antenna has an **unobstructed 360° view of the sky**.

Avoid using your Iridium phone near **large buildings, trees or mountains** as these can obstruct line of sight with the satellites.
